April 1st 2024 -present

- Experience in 3rd party code integration
- Experience using a ticket CRM (Hubspot)
- Handling customer relations (phone & email)
- CSS, HTML, JS, PHP, SQL
- Daily Google Meets/chats
- CI/CD Development Process (Jira)
- Utilize CMS
- Site Speed analysis and optimization
- Communications & collaborations with other departments (OEM, Design, Development, and more)

Frontend Web Developer Intern | Harold Jean Louis Inc,

Oct. 2023- Dec. 2023

- Worked as a remote frontend Developer intern for an accounting firm called Harold Jean Louis located in New York, New York.
- Utilized Google Meet once a week to provide deliverables of the work we had completed the week prior. Some work I did required an NDA and will not be named.
- I worked on websites for clients within the company and mocked, wireframed, and developed the pages through the Wordpress content management system and Elementor.

Education

High School

2016- 2020

Southern New Hampshire University

2022-May 2027

- Bachelor of Science, Computer Science SWE+

GPA: 3.4

Core Classes Taken

- Intro To Programming
- Discrete Mathematics
- Applied Linear Algebra
- Structured Database Environments
- Object Oriented Programming (OOP)
- Software Development LifeCycle (SDLC)
- Operating Platforms
- Data Structures & Algorithms

Soft Skills

- Challenge Driven
- Punctuality
- Communication
- Time Management
- Logistical
- Eye for Detail
- Customer Service
- Focused

Technical Skills

Languages

- Python
- JSX
- PHP
- C++
- Java
- MySQL
- PostgreSQL
- Typescript

Libraries and Frameworks

- Express.js
- Python Flask
- TailwindCSS
- Mantine UI
- Shadcn UI
- Next.js
- React.js

Tools

- VSCODE
- Git/Github
- Postman
- Vercel
- AWS

Stack

- Next.JS + Vercel
- PostgreSQL + Supabase
- SupabaseOAuth
- googleOAuth

Personal Projects

• KB'S Kustomz Version 2 | NEXT.JS Website + CMS

- This is version 2 of the Autobody website I developed for a client using NEXT.JS, Vercel, Supabase- [live site here](#)
 - leveraged Server Side Rendering (SSR)
 - used server actions for data mutations
 - Cache Control
 - revalidated routes using tags to lighten the request load on the server
 - Understood Dev vs Prod and Server vs Client Caching
 - Supabase Database + Vercel Storage (Blobs)
 - Created triggers for the updated_at columns
 - Auth flow set up using Supabase + PKCE (Proof Key Code Exchange)
- Security
 - Role Based Access (RBA) implemented using NEXT Proxy
 - Row Level Security + Policies on SELECT, INSERT, UPDATE, and DELETE
- Vercel is being used to deploy the website to production
- Documentation
 - [Github Repo Here](#)

• JarvisBot Discord Bot

- Developed a Discord bot that gives Marvel Rivals Character Summaries.
- Discord.py
- Integrated AI into Jarvis Bot with Google GenAI
- Amazon Web Services EC2
 - `t2.micro Instance
- [Github Repo Here](#)
- [DEMO Here](#)

• Python Regression Analysis on US Opioid Deaths

- Analytical Data Models representing US Opioid Death rates
- Goal:
 - predict the death rate for 2021
 - Find which method was most useful:
 - 1 Linear Regression
 - 2 Polynomial Regression
 - 3 Polynomial regression (splitting data set)
 - [Github Repo Here](#)

• My own Personal Portfolio Website

- Built and deployed a portfolio website to display my projects and academics. CI/CD process is utilized especially while I'm still working on the skills page
